

EMBRACE-3 Clinical Study Report

Sample document. Stands in for an uploaded regulatory PDF so the viewer has something to show.

1. Study design

Randomised, double-blind, placebo-controlled, multi-centre.

2. Primary endpoint

Responder rate at Week 16, reported with its confidence interval.

3. Safety

Adverse events at or above 2% incidence, verbatim from the approved safety wording.

4. Dosing

Once daily, oral, with the titration schedule as written.
